### **DETAILED ACTION**

This is in response to the amendment filed on July 15th 2009.

#### ***Information Disclosure Statement***

1. The information disclosure statement (IDS) submitted on 6/12/09 is in compliance with the provisions of 37 CFR 1.97. Accordingly, the information disclosure statement is being considered by the examiner.

#### ***Response to Arguments***

1. Applicant's arguments, see pg. 9-12, filed 7/15/09, with respect to claims 1-23 have been fully considered and are persuasive. The 103(a) rejection of claims 1-23 has been withdrawn.

#### ***Allowable Subject Matter***

2. Claims 1-23 are allowed.

3. The following is an examiner's statement of reasons for allowance: Independent claims 1, 19 and 23 recite searching a vlan database for a particular vlan and if the vlan is found adding a new access port, otherwise creating the vlan. The claims also define how the creation and port addition are to be performed. These steps combined with the other features of the claims are believed to be novel and non-obvious in view of the

prior art. The art teaches vlans, vlan-ids and tables for mapping vlans (Dobbins) as well as optimized routing schemes (Gonda, Avargues). However the art does not teach or suggest searching for a vlan and creating the vlan if it is not found as recited by the claims. Dependent claims 2-18 and 20-22 further define the invention and are allowable based on their dependency.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
